SKILLS

- Languages:** Python,SQL,JavaScript,TypeScript, C++, Java
- Tech Stack:** FastAPI, Node.js, React.js, Pandas, NumPy, Scikit-learn, Tailwind CSS
- CS Fundamentals:** Operating Systems, Data Structures and Algorithms, Computer Networks, OOPs
- Frameworks/Tools:** Git, GitHub, Google Collab, PyCharm, Jupyter, Pytorch, Vercel
- Soft Skills:** Leadership, Adaptability, Problem Solving, Teamwork, Communication

WORK EXPERIENCE

BlueStock Fintech | Software Developer Apr' 2025 - May' 2025

- Engineered and maintained full-stack web applications, APIs, and databases, ensuring seamless integration of back-end services with high-performance architectures.
- Architected responsive UI/UX designs and optimized system performance by following security best practices and rigorous testing protocols.
- Collaborated with project leads and team members to deliver scalable software solutions, focusing on version control, creative problem-solving, and efficient progress

PROJECTS

MeriCity – Civic Issue Reporting Platform | [GitHub](#) | [Live Link](#) Nov' 2025 - Jan' 2026

Tech-Stack: React.js, Node.js, Express.js, MongoDB, Google Maps API, OpenAI APIs

- Engineered a crowdsourced civic reporting ecosystem for SIH 2025 (Problem ID: SIH25031), enabling urban problem logging via photo, voice, and geolocation tagging.
- Integrated AI-based classification and automated routing using OpenAI to categorize complaints and forward them to municipal departments, reducing response latency.
- Architected real-time interactive dashboards for citizens and administrators to ensure transparency, accountability, and seamless communication across departments.

Time and Productivity Analysis | [GitHub](#) Apr' 2025 – May' 2025

Tech-Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter, PyCharm

- Executed a machine learning framework to analyze employee efficiency by processing physiological, behavioral, and psychological data streams.
- Formulated predictive models to forecast future performance trends and pinpoint specific optimization areas through automated data-driven insights.
- Optimized audio capture and transcription pipelines to reduce latency and ensure reliable performance across devices.

SevaSetu – Intelligent Social Impact Platform | [Github](#) Feb' 2025 - Mar' 2025

Tech-Stack: React.js, Node.js, MongoDB, Razorpay, Google Maps API, OpenAI APIs

- Constructed a unified portal connecting donors with NGOs to facilitate seamless resource allocation and global financial contributions.
- Deployed an AI-driven assistance module alongside custom-designed help services to provide instant user support and guidance.
- Mapped real-time donation centers using geolocation services while securing transaction workflows via integrated payment gateways.

CERTIFICATION

|--|-----------|
| • Networking Basics - Cisco Link | Mar' 2026 |
| • AI & ML for Real World Problem Solving Link | Aug' 2025 |
| • Machine Learning – Ediglobe (IIT Kharagpur) Link | Aug' 2025 |
| • Machine Learning 5 Project with Python Link | Jun' 2025 |
| • Developer and Technology Job Simulation Link | Apr' 2025 |
| • Privacy and Security on Social Media Link | Feb' 2025 |

ACHIEVEMENTS

- | | |
|--|-----------|
| • Solved 200+ algorithmic challenges on LeetCode, demonstrating proficiency in complex data structures. | Mar' 2026 |
| • Ranked #130 University-wide with a 4-star coding rating and a cumulative technical score of 1000+. | Feb' 2026 |
| • Delivered professional UI/UX and Frontend solutions as a Freelancer for diverse digital client projects. | Jun' 2025 |
| • Participated in the E-Summit 2025 at IIT Roorkee, engaging in entrepreneurial and technical workshops. | Feb' 2025 |
| • Attained 1st Runner-up in "Hack and Hunt" College Hackathon, winning cash prizes and certifications. | May' 2024 |
