Email: shiwaniyaduka123@gmail.com
Mobile: +91-6378771702

SKILLS

Languages: C++, Python, HTML5, CSS
Libraries: Flask, OpenAI, Boto3, Streamlit, Gradio
Tools/Platforms: Linux, Git/GitHub, Amazon Web Services (AWS), Docker, Firebase, MongoDB, MySQL
Core CS Concepts: Data Structures and Algorithms, Operating Systems, DBMS, Agile Methodologies
Soft Skills: Leadership, Communication, Collaboration, Active Listening, Agile Learning, Detail Orientation

PROJECTS

Menu-based remote tools | *Python, OpenAI, Linux, Flask, Docker, Boto3* | [GitHub](#) Jun' 2025 – Jul' 2025

- Python menu-driven tool integrating ML processing, Docker/Kubernetes automation, SSH utilities, and Twilio/WhatsApp messaging for non-technical users.
- Modular architecture supporting image processing, container deployment, and real-time automation workflows.
- Unified cloud control via Boto3 for EC2, S3, and IAM, enabling remote provisioning, logging, and deployments.

User-Staff Management | *C++, OOPs, DSA Concepts, MongoDB* | [GitHub](#) May' 2025 – Jun' 2025

- Created a role-based system (Admin vs Staff) using class inheritance for access and privilege separation.
- Used STL containers (vector, map, stack) for fast lookups, undo functionality, and sorted user data handling.
- Added JSON-based persistence with support for local storage and MongoDB integration via mongoimport.

CI/CD Pipeline Development | *Jenkins, Docker, DevOps* | [GitHub](#) Apr' 2025 – May' 2025

- Built an automated CI/CD pipeline using Jenkins to accelerate code integration, testing, and deployment.
- Containerised applications with Docker and integrated them into Jenkins for consistent and portable builds.
- Improved DevOps efficiency through continuous delivery, reducing manual intervention and deployment time.

TRAINING

Agentic AI Platform Development | LinuxWorld Informatics Pvt. Ltd. | [Certificate](#) May' 2025 – Aug' 2025

- Developed an agentic AI automation platform using Python, AI models, Docker, Kubernetes, and AWS (EC2, S3, Lambda, RDS) with one-click task execution via Streamlit.
- Orchestrated end-to-end workflows by integrating containerization, cloud SDKs (Boto3, Twilio, PywhatKit), data processing (NumPy, Pandas, Matplotlib), and OpenCV-based vision.
- Demonstrated strong problem-solving, adaptability, teamwork, and rapid learning while delivering high-quality features under expert mentorship.

CERTIFICATES

Introduction to Internet of Things | NPTEL | Elite – 93% | [Certificate](#) Apr' 2025

Programming in python | Meta | Coursera | [Certificate](#) Feb' 2023

ACHIEVEMENTS

- **Mind Merge Competitive Event:** Dec' 2025
Won 1st place and a trophy for collaborative problem-solving and creative thinking
- **Product building Competition:** Jun' 2025
Won two summer internship project competitions and received webcams as an award

EDUCATION

Lovely Professional University Phagwara, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.61** Since Aug' 2023

Sophia Grils' Senior Secondary School Bhilwara, Rajasthan
Intermediate; **Percentage: 79.8%** Apr' 2021 – Mar' 2022

Sophia Grils' Senior Secondary School Bhilwara, Rajasthan
Matriculation; **Percentage: 96.8%** Apr' 2019 – Mar' 2020
