SKILLS

- **Languages:** Python, C++, JavaScript, Java, SQL, C
- **Frameworks:** HTML and CSS, Bootstrap, ReactJS
- **Tools/Platforms:** Git, Github, VsCode, Jupyter, Google Collab, Pycharm, Figma
- **Soft Skills:** Problem-Solving, Continuous Learner, Team Player, Project Management

EXPERIENCES

- **Software Developer- Bluestock Fintech | [Link](#)** April – May 2025
 - **About:** Worked as a Software Developer Intern at Bluestock Fintech for 2 months, where I contributed to developing and maintaining web applications, APIs, and databases. Ensured responsive UI/UX design, integrated back-end services, optimized performance, and followed security best practices while collaborating with team members and reporting progress under the guidance of project leads.
 - **Skills Developed:** Front-end Development, Version Control, problem-solving, creativity, and Team Collaboration.
- **Machine Learning – Ediglobe (IIT Kharagpur) | [Link](#)** June - July 2025
 - **About:** Worked as a Machine Learning Intern at Ediglobe, IIT Kharagpur for 2 months. Underwent one month of intensive training in AI and ML concepts, followed by developing one minor and one major ML project. Gained hands-on experience in model building, data preprocessing, and meeting real-world project deadlines.
 - **Skills Developed:** Machine learning algorithms, data preprocessing, feature engineering, model training and evaluation, Python programming (NumPy, Pandas, Scikit-learn), data visualization.

PROJECTS

- **MeriCity: | [Link](#)** October - 2025
 - **Build** A crowdsourced civic issue reporting and resolution system built for SIH 2025 (Problem ID: SIH25031) to enable citizens to report urban problems through photos, voice, and location tagging.
 - **Integrated** AI-based classification and routing to automatically forward complaints to the appropriate municipal departments, improving response time and efficiency.
 - **Implemented** real-time dashboards for citizens, administrators, and departments to ensure transparency, accountability, and better communication.
 - **Tech:** React.js, Node.js, Express.js, MongoDB, Google Maps API, OpenAI API
- **Time and Productivity Analysis: | [Link](#)** Feb 2025 -March 2025
 - **Developed** A machine learning–based system to analyze and predict employee productivity using physiological, behavioral, and psychological data sources.
 - **Built** A predictive models to forecast productivity levels and identify potential areas for performance improvement through data-driven insights.
 - **Enhanced** clustering algorithms to segment employees based on performance metrics, enabling targeted interventions and efficiency enhancement.
 - **Tech:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook, Pycharm.

CERTIFICATES

- Privacy and Security on Social Media – [NPTEL](#) October 2024
- AI & ML for Real World Problem Solving - [LPU](#) November 2024
- Machine Learning 5 Project with Python – [FreecodeCamp](#) May 2025
- Java, C, Cpp, DSA – [IamNeo](#) January 2025

ACHIEVEMENT

- **Worked as a Freelance UI/UX and Frontend Developer | [Link](#)**
Collaborated with clients to design and develop responsive, user-friendly web interfaces and deliver creative digital solutions.
- **Scored 4 Star on GFG Platform | [Link](#)**
As a constant learner, securing an overall university rank of 130 in Lovely Professional University.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.89 Since August 2023
- **B. N. Public School** Gorakhpur, U.P.
Intermediate; Percentage: 75% April 2022 - March 2023
- **U. S. Central Academy** Gorakhpur, U.P.
Matriculation; Percentage: 86% April 2021 - March 2022
